Secure Valeting provides professional car valeting and vehicle imaging services to the UK motor industry. The Directors and Operations team have many years experience in managing all aspects of vehicle preparation for retail dealer groups and independents across Britain. Secure Valeting also work with de-fleet centres, auction sites and auto bodyshops. Secure Valeting offer the credentials and experience of a truly national organisation whilst retaining the flexibility of a local company. Our constant investment in skills, technology, equipment and our network of over 1,000 operatives, ensure that solutions are proven, results driven and cost effective. We recognise the true importance of customer requirements. Our value alignment and operational delivery of excellence ensure we remain focused on being part of their team, helping them to be successful.
