New York Cardiac Diagnostic Center founded in 1987. We are a highly specialized, full-service cardiac diagnostic facility with top rated, best in class heart doctors nyc & relationships with all major Manhattan hospitals.
We are changing the way New Yorkers think about cardiologists, cardiac diagnosis & treatment. With world class doctors and the very latest in diagnostic equipment all under one roof, the bar has definitely been raised. We are the leaders in Manhattan for cardiac testing & diagnosis. We provide cardiac care of a standard that is recognized to be amongst the best in the world.

It is the Manhattan Cardiologist`s commitment to his patients that has earned him the reputation of being one of NYC`s top cardiologists. Dr. Steven Reisman MD`s office specializes in taking exceptional care of each cardiology patient from the initial consultation to the post consultation period. The honor and privilege of caring for patients comes with the responsibility and dedication of the doctor’s staff to the utmost standard of excellence in patient care.

Our best rated cardiologists pride ourselves with providing you highly personalized and comprehensive cardiac care. Our philosophy of direct doctor-to-patient care at every visit has made us one of the most trusted, respected and best rated cardiac diagnostic practices in NYC. Our office is certified in ICANL and ICAEL.

New York Cardiac Diagnostic Center has the most comprehensive suite of in-house services including heart screening test in Manhattan for:
