Elastostar Rubber Corporation is a US-based manufacturer of custom rubber and silicone products, located in Plain City, Ohio. We specialize in producing precision-engineered components for businesses that require dependable sealing solutions and application-specific rubber parts. Our extensive product range includes silicone tubing, platinum-cured silicone tubing, extruded rubber seals and gaskets, custom silicone profiles, metal-detectable silicone extrusions, food-grade silicone gaskets, closed-cell silicone sponge, molded rubber parts, metal-detectable O-rings, and custom die-cut gaskets.

We serve customers across the aerospace, automotive, solar energy, food and dairy, pharmaceutical, and medical equipment industries. Our manufacturing and quality management systems are supported by ISO 9001:2015, AS9100D, and IATF 16949 certifications. Elastostar Rubber Corporation focuses on delivering custom manufacturing solutions that align with customer specifications, industry requirements, and intended product applications.
