LCP acts for investors to maximise their capital and rental returns in Prime Central London residential property.

We always represent the buyer's interests and access the best on and off-market opportunities. But we are not only a buying agent: we provide a unique one-stop service which includes property sourcing, design and refurbishment, lettings, ongoing property and sales management. All handled in-house, we are convenient and accountable.

Based on our specialist market knowledge, we have also launched a series of investment funds targeting Prime Central London's rental sector since 2007, including the UK's first Sharia compliant residential funds.
