The Foundations of Esson were laid back in 1964, in Aberdeen. Through clear vision, strong character and insistence on the highest standards of quality and values, we have established Esson as one of Scotland's most successful and respected Property Investment and Development companies.

The client goes to the heart of everything we do. We are committed to providing the right space at the right price, whether it be new or refurbished. As a family-owned, private landlord with a long tradition, we are also determined that the principles and values which have proved to be the backbone of our success will continue to support our future strategy and the way we do business.
