Greenpeace exists because this fragile earth deserves a voice. It needs solutions. It needs change. It needs action. Greenpeace is an independent global campaigning organisation that acts to change attitudes and behaviour, to protect and conserve the environment and to promote peace by: Catalysing an energy revolution to address the number one threat facing our planet: climate change. Defending our oceans by challenging wasteful and destructive fishing, and creating a global network of marine reserves. Protecting the world's ancient forests and the animals, plants and people that depend on them. Working for disarmament and peace by tackling the causes of conflict and calling for the elimination of all nuclear weapons. Creating a toxic free future with safer alternatives to hazardous chemicals in today's products and manufacturing. Campaigning for sustainable agriculture by rejecting genetically engineered organisms, protecting biodiversity and encouraging socially responsible farming.
