Nepal is a country of vast cultural richness, historical monuments and the home to the world’s most majestic mountains. The hospitality of the Nepali people and their welcoming smiles never fail to win the hearts of those who visit the country. In spite of its breath-taking beauty and a deeply spiritual milieu, Nepal has a turbulent history of political and socio-economic instability, leaving a significant portion of the population below the poverty line. The sad reality has touched the hearts of many tourists and led them to contribute personally for the improvement of the situation. Sambhav Nepal’s current mission is to achieve grassroots reforms in education, poverty, health and sanitation and also community support to women, various youth clubs, vocational skills and training programs along with supplying necessary stationary and sports equipments in 29 village development community (VDC) of Gorkha district in Nepal, so as to uplift the living condition of the underprivileged.
