We can host private events for various occasions including official luncheons or business meetings. The two downstairs dining rooms can accommodate 15 guests each, the cellar can accommodate 30 guests and the terrace can receive up to 25 people. According to the number of guests, you may choose to book the entire restaurant or certain rooms to suit your convenience. We can advise you in respect of the ideal location and make suitable arrangements including the menu where we can offer our own specialities or dishes of your own choice.
