Our place "To Kafeneio" consists of an inner and an outer place. Its internal part consists of the ground floor and the underground floor. The ground floor consists of: The lobby The central room (room with tables and chairs) The kitchen All rooms are within one´s sight. The underground floor covers the functional needs of our shop as it consists of storerooms, the wine cellar, the barrels where our wine ages, the accounts department and the W.C., where the stairs lead us. The outer place is in front of our shop, on the pedestrian walkway. We keep some tables and chairs outside and this action is covered by a special licence from the Municipality of Athens for the year 2004.
