In 2006 Olive and Oil opened its doors in the bustling village that forms the heart of Umhlanga Rocks. As a family owned business, we strived to carry that passion for family forward, by creating a family-friendly environment for our guests. We looked to the Mediterranean for our inspiration, where family and the finest foods are the key ingredients to life. The Olive has had a huge impact on all the important civilisations of the Mediterranean for at least 4000 years, evoking feelings of harmony, vitality and health. It is this sense of the divine that has been the driving force behind our traditionally Mediterranean fare, and the reason that we provide each table with a selection of the finest olives upon arrival.
