The Oakland Museum of California (OMCA) is an interdisciplinary museum dedicated to the art, history, and natural science of California, located in the heart of Oakland. OMCA features relevant, engaging, and interactive exhibitions and events, in a gem of mid-century modernist architecture featuring seven acres of sculpture gardens with views overlooking Oakland's iconic Lake Merritt. With a collection of more than 1.9 million objects, and over 100,000 square feet of space in its permanent and special exhibitions galleries, OMCA is dedicated to telling the extraordinary story of California and its people.
