We’ d like to introduce ourselves to you. Our names are Will and Alex and we own and operate Tokoriki Diving, an award winning PADI 5 Star Dive Centre based at Tokoriki Island Resort.

We arrived in Fiji in 1998, having spent the previous 5 years living in Egypt. Somewhere tropical after living in the desert was a nice change.

None of our adventure was planned, we simply got the opportunity to work in Fiji, and have never looked back!

We’ ve spent the last two and a half decades pioneering the diving around Tokoriki Island: exploring the reefs, getting to know the aquatic life, and understanding the tides, currents and seas. From the countless hours spent observing one small area of underwater Fiji has come a strong sense of ‘guardianship’ of the reef, a passion we have imbued in the rest of our team.

In 2000 we set up the Tokoriki Giant Clam Regeneration Program in partnership with the Fiji Ministry of Fisheries. Through trial and perserverance, we have ended up with the largest collection of mature tridacna gigas clams in Fiji! This is a critically endangered species of giant clam, with our largest weighing approximately 100 kg/ 220 lb, and measuring over 1 metre/ 3 ft in length.

We are so lucky that through twenty four years we have never lost our enthusiasm, always kept learning and investing. And the reason we are able to live on this beautiful island and dive in these beautiful seas is you...
