Pacific cleaning is a dedicated team of professionals that use the best available cleaning equipment and chemicals by Karcher Professional to deliver immaculate cleaning results for your business. We specialize in industrial and commercial cleaning, equipment supplies, and service multiple businesses across Fiji since 2017.

As part of Green Leaf group of companies we are also engaged in several other industries – such as commercial fit outs, furniture manufacturing and supply of commercial kitchen appliances. All of that allows us to better understand our clients needs and offer higher quality services.
