Pearl Denture Studio - a New South Wales Northern Rivers denture clinic network with two locations in Mullumbimby and Casino, providing only the highest quality, state of the art dentures and denture services. We create our modern prosthethic restorations using the Bio-functional Prosthetic System (you may have heard it referred to as BPS dentures). We can also create suction dentures using the, developed in Japan by Professor Jiro Abe, SEMCD (Suction Effective Mandibular Complete Dentures) technique. Talk to us about our:

- Full Dentures - a complete denture solution.

- Partial Dentures - a choice to consider for those looking for a replacement to only a few missing teeth.

- Immediate Dentures - when the teeth have to be extracted, your new dentures can be made before your teeth are removed.

- Digital Dentures - made using computer aided design and manufacturing, for when the perfect fit is an absolute priority.

- Denture Reline (and rebase) - for the maintenance of the fit of your dentures.

- Denture Repair - because accidents happen to everyone, dentures wear out or start fit poorly. Most of our denture repairs can be completed in one day.

We operate at two locations in the Northern Rivers region of NSW.

Our Mullumbimby denture clinic is located at 5/97 - 99 Stuart Street and open Monday to Friday from 9 AM to 5 PM. You can reach us on (02) 6684 3677.

You can find our Casino denture clinic at 125 Barker Street, open from 9 AM to 5 PM. Call us on (02) 6662 1137.

Visit us on the web today and book your appointment now for a brand new smile brimming with confidence, thanks to Pearl Denture Studio!
