Since 1896, Madison Dental Group has been practicing dentistry in New York City, in fact, our practice is the longest continually running dental practice in Manhattan. Our practice offers a wide range of general dental services, with an emphasis on cosmetic dentistry and dental implants. We offer comprehensive dental care, including whitening and bleaching, porcelain veneers, tooth-colored fillings, orthodontics, crowns, bridges, sealants and dental implants, as well as general dentistry services such as root canals, wisdom teeth extraction and treatment of gum disease and jaw disorders. We respect your time so we usually run on time!

All of MDG's dentists are highly experienced, including our President, Dr. Lawrence S. Levine, as well as Dr. Arthur H. Press, Dr. George D. Reskakis, and Dr. Kristin Harrison, who have been seen on local television news reports as dental authorities. We also have Dr. Steven S. Moss, Dr. Anca Bazile, Dr. Ryan Trulby and Dr. Hossein Moosavi here for our specialty dental services.
