At Natalie Sofer Weddings and Events, we are committed to making sure your event is designed flawlessly and connects with everything your heart desires. Our clients’ needs and wants are most important to us. With years of professional experience, we are aware of the importance of making sure that your event is as you dreamed it would be, without worrying about the stress. We strive to take the stress and worries out of your hand so that the only thing you need to carry is a smile.

As a Los Angeles wedding and event planner I love creating one-of-a-kind celebrations, particularly if it involves new locations, unusual requests, or challenging timelines. Or, as one of my clients put it, “Making the impossible not only possible but a fabulous experience for all involved

I know how important it is that your event, whether it’s a bar mitzvah for 50, a same-sex couple’s destination wedding for 300 or a nonprofit fundraiser for 500, be everything you expected it would be. Having learned there is no single formula for event planning, I use my knowledge, experience and expertise, along with a team of extraordinary vendors, to turn that expectation into a fabulous reality. I would be delighted to do the same for your event or wedding and offer a complimentary consultation to begin that process.

I provide a complimentary consultation, either in person or over the phone, which will take you through the planning process to see how we might work together. I look forward to hearing what your dream wedding or event looks like and how I can help in bringing it to fruition. So don't hesitate to contact me, email me or fill out the Contact Information Form, and I'll be in touch.
