Specialists in dust, wood and fume extraction, the experts of Wood Waste Control are rich in experience and knowledge and offer high-grade cleaning systems and services. We are known to create bespoke dust extraction systems as per your requirements. Established in 1978, we specialise in designing systems for shavings and chip extraction, modular filter systems, fine dust extraction, complete ‘turn-key’ systems, wood fired heaters, biomass heating systems, industrial shredders and briquette presses. So whether you deal in plastic, metal, paper, rubber, or wood, we have got a solution for your industrial waste. Visit our website for exploring shipping or payment options, or give us a call for further inquiries.
