Company logo

Coach House Dental Practice, a family-friendly practice serving the local community of Wirksworth and the surrounding areas. Our practice offers a wide range of dental care treatments including preventative, restorative, and cosmetic treatments.

We believe that everyone is entitled to good quality dental care in a relaxed environment. This is why we believe that each patient should be treated as individuals. We will help you to help maintain your smile and dental health.

Our practitioners are highly qualified to carry out dental procedures such as root canal treatment, dental bridges, Invisalign® orthodontic treatment, and dental crowns. We can administer these services for our patients directly on site. We refer patients to our colleagues in specialist fields of dentistry for complex extractions, sedation dentistry, and dental implant surgery.
