New-Air is the company to go to for all your air conditioning and refrigeration needs. With over 40 years of experience, we are England’s best and most reliable air-conditioning and refrigeration specialists. Along with having a well-established client base, we have employed some of the most qualified engineers in our company. We specialise in providing all kinds of installation, service and maintenance of air conditioning, refrigeration and ventilation equipment. So whether it is repair, servicing, installation or produce-cooling solution for your property, give us a call today for a free quotation. If you are not sure which equipment is right for your circumstances, call us today to have a quick chat with one of our experts.
