At Acorn Dental Care, we have been looking after the smiles of our patients since 1990.

Our private flagship practice is in Maidenhead, Berkshire. We also have another practice nearby in Slough which accepts private and NHS patients.

At Acorn Dental Care, we strive to ensure all our patients are comfortable and relaxed throughout the entire treatment process. We offer convenient onsite parking, and our beautiful reception is filled with natural light and comfy seating to help you relax before your appointment.

We keep your welfare and best interests at the heart of everything we do, so you can confidently consider us an integral part of your dental healthcare plan.

As part of your initial consultation, we discuss your dental health goals with you to gain a proper understanding of your needs. Feeling engaged and comfortable with your treatment is an integral part of the process. From the first consultation to aftercare, we ensure you understand every step of your treatment.
