Our team consists of experienced facial aesthetic marketing professionals including SEO experts, web and graphic designers, and branding specialists.

We understand the facial aesthetics industry, both from a client and a facial practitioner’s perspective. We will apply our marketing expertise in this aesthetic /cosmetic industry niche, developed over years of experience, to tailor a marketing programme to help build your brand and grow your clinic.

We appreciate that every clinic is different. We strive to promote your specific brand identity in a way that differentiates you from the competition..

Our Google SEO team analyses and develops a tailored strategy to significantly improve your search engine rankings to help get the exposure you need. We provide you with easy-to-understand, transparent progress reports.

Digimax Derma think outside the box, and do not use a cookie-cutter approach to your clinic marketing. We treat all clients as members of our family: Your goals are our goals. We endeavour to do whatever it takes to make your business a success.
