Victor Harris technology ensures we keep clients ahead in a fast moving marketplace. For example, when we search we use a commercial property alert search systems to ensure coverage is met. 98% coverage is what you can expect.

Our internal research team provides us ability to locate any commercial property throughout London. The tech we use even allows us to see achieved rents in any building, invaluable during negotiations. Search service is centred around Central London given the fact we are located in our Mayfair office on Sackville Street.
