We provide a one stop shop for all of your Plumbing, Gasfitting, Drainage and Liquid Waste Removal, Auckland wide.

Specialising in residential new builds, renovations, and maintenance work throughout the Auckland region, our team at Dynamic Plumbing Works pride themselves on bringing experience, efficiency, and enthusiasm to each job.

Our customers include property managers, builders, and homeowners. They choose us because we are committed to getting every job right.

Through identifying the best solution early, we will complete your plumbing, gasfitting or drainage job quickly and effectively, and we don’t leave the site until you are satisfied.

Find out more about our services below or just pick up the phone and give us a call. We’re always happy to have a chat about the services you need.

Plumbing - Our experienced team can help you with any plumbing maintenance, installation, or repair job. Commercial or residential, large or small, we handle it all.

Gasfitting - Our fully qualified gas technicians can take care of any gas problem at your home or business. Whether it is an installation in a new build, or a maintenance job, we have you covered.

Drainage - We offer a full range of drainlaying services at Dynamic Plumbing Works, from drainage on new build and renovation projects, to replacing damaged or displaced sections of drain.

Drain Unblocking - Our purpose-built drain unblocking unit, combined with our highly trained staff, makes short work of most blockages in drains of all sizes. Whether it’s a one-off blockage, tree roots, or a displaced pipe, we will get it sorted.

Drainage CCTV & Fault Locating - With our state of the art technology, we can send a camera down your drain to not only identify the cause of the blockage, but to also locate it. This makes it easier and more efficient to complete the repair.

Liquid Waste Removal - With our 4,000L compact suction truck along with 50m of hose, we can remove just about any liquid waste from your premises. We will then dispose of the waste at a council-approved treatment plant.

Renovations - Does your kitchen, bathroom, or laundry need an upgrade? We can handle the plumbing, gasfitting, and drainage, of course. However, to make the process even easier, why not leave the whole project to us, too? We have a team of preferred contractors that we have used over the last 10 years.

Grease Trap Cleaning - Are you looking for a reliable company to clean the grease traps in your commercial kitchen? Our 4,000L suction truck along with 40m of hose can take care of this with no mess or fuss.

Septic Tank Cleaning - At Dynamic Plumbing Works, we’ve got the equipment and expertise required to clean your septic tank quickly and efficiently. We’ll respond quickly to your call, too.
