Big Buck Home Buyers is a family-owned professional home buyer based in San Antonio, TX. We buy houses in San Antonio and the nearby areas for cash in less than a week. Homeowners can sell their homes to us in any condition. We are one of the best cash home buyers in San Antonio, and we have helped hundreds of distressed homeowners sell their properties for the best prices.

To get started, customers contact us with their property details, and we review them to come up with a fair cash offer within 24 hours. The property owner can evaluate our offer and make an informed decision. We don’t compel our clients to sell their homes to us but encourage them to make the best choice for their situation. If they accept the offer, they can close within a week or less. Visit https://www.bigbuckhomebuyers.com/ to learn more about our home selling process and services.
