Royal Real Estate Investments, LLC was started to help families and individuals by giving them a quick, fresh start. Our Maryland and Delaware-based business has been doing just that for those that have owned a property that has been sitting or those that have been foreclosed on, or those that have inherited an unwanted house. We've helped retirees, landlords, investors, and so many more because we pride ourselves on understanding what these people really need—a fast closing. Our average closing time is 7-15 days. That is faster than you can get a bank or an agent to do anything for you.
