Pacific Transcription is an Australian owned professional transcription company offering high-quality and specialised transcription services. Our professional transcribers specialise in face-to-face and phone interviews, and focus group transcriptions, in a range of service fields including:

- Academic Transcription – We've worked with over 200 research and education institutions across Australia in several fields including, Business, Economics, Law, Social Science, Agriculture, Health, Education, and more!
- Corporate Transcription – Our experienced typists offer a range of services for business meetings, conferences, seminars, conference calls and Q&A sessions.
- Legal Transcription – Having worked with dozens of Australian and international law firms from all over the world, we can provide you with professional and accurate transcriptions for solicitors, attorneys, and barristers.
- Medical Transcription – We provide industry leading transcriptions and medical dictations for physicians, nurses, allied health professionals, specialised clinics, and more. You can be assured that your transcriptions will be kept completely confidential.
- Other Digital Document Archiving Services – We also provide a range of other services including minute taking services and live captioning.

We also provide a huge range of transcription products available for purchase.

If you're looking for transcription services online or in-person, get in touch with Pacific Transcription today!
