At Fiorio our philosophy is to create looks that work for the individual. Every Service begins with a full consultation and client discovery. Each client will receive a complimentary beverage, relaxing scalp massage and blow out to complete your service. Achieving a beautiful colour that brings out your best features may be quick or may take time, A full consultation is needed to assess your natural tones and formulate the best colour for you. Price varies for each customer, so ensure you receive a quote before proceeding with your service. Achieving a new texture that brings out your best features may be quick or may take time, A full consultation is needed to assess your natural texture and plan the best service for you. Price varies for each customer, so ensure you receive a quote before proceeding with your service. Hair extensions Fiorio Salons only work with the best extension lines and have been certified to perform each service. Hair extensions are not only for adding length to your hair, many women use them to add volume. Hair extension services range in price depending on the length and type of extension services. Contact your Fiorio salon today to book a free consultation. Cutting extensions or wigs For hair extensions to look natural, we recommend having them incorporated into your cut. Long layers can be added to ease the transition from where your hair ends and the extension starts. If you have recently suffered hair loss and wear a wig, some of our locations have stylists that specialize in cutting each wig to suit your individual style. *Please note: not all locations offer hair extension and wig services. Please contact your local Fiorio to find out more details. Do you refer your stylist, colourist or esthetician to your family and friends? With three referrals, we would like to offer you a complimentary service to express our appreciation. Ask your referred friend to mention your name when they arrive for their appointment, and the credit will instantly be applied to your account. You may choose from one of the following: - Complimentary haircut or style, at equal or lesser value. - Complimentary single process colour, at equal or lesser value. - Complimentary esthetic service, at equal or lesser value. Referrals must be directed to your stylist, colourist, or esthetician at your location. Free service must be equal to, or lesser then the cost of service referred.
