Company logo

Since the start of the company we find the right people for our clients. The “right” people are becoming ever more important. We search through advertisement, internet, direct search (headhunting) and through contacts that we have built up all over Germany through the years. In the meantime there is hardly an industry in which we haven’t worked: IT, Machine Building, Electronics, Medical, Biochemistry, Chemistry, Construction, Financial etc. We work throughout Germany (Germany isn’t that big) and at various levels, finding Country Managers, Sales Managers, CFO’s or simply an excellent salesman with the potential to build things up. One of our specialties is helping international companies here in Germany. Due to the fact that Gerhard Benneck is an American with many years of experience in Germany (speaking both languages fluently) he can more easily understand the needs of international clients. Let us know what you are looking for and we may be able to help you. OUR GOAL: Finding and placing excellent personnel that will help the company be successful in the relevant area. Is that your goal too?
