After successfully selling houses in the local area for over 25 years, Greenwoods is still consistently recognised as the No. 1 selling agent, not just by our clients but also through independent research. Greenwoods opened its doors on Sandy Park Road in 1988 and continue to work under the same core values combining expertise, local knowledge, enthusiasm and a dedication to customer service that not only delivers excellent results but also has clients coming back time after time, and recommending us too. We are proud of our independent status and believe it is integral to our success, allowing us to offer impartial advice on every aspect of the house selling and buying process. Equally, we understand the need to remain at the forefront of estate agency and we are constantly reviewing our current procedures as well as researching new innovations. As a result, we have invested in the very latest technological advancements to ensure we work with only the best, and most effective, cutting-edge IT systems. These are guaranteed to deliver our properties to potential buyers the instant they become available. It is this combination of technology and superior customer service that has helped to maintain Greenwoods' position as the leading local agent for the past 25 years.
