Kosmidis & Partners Law Firm is a partner of international companies and advises on the establishment of national structures, while respecting their business culture. For this reason we have teamed up well into an international cooperation network. Our partners and associates are licensed to litigate before all German and Greek courts, including the Greek Supreme Court, Areios Pagos in Athens. English speaking enterprises now have a competent and specialized partner in Greece (Greek lawyers of KPAG), which can assist them in any major issue with respect to Greece. As a law firm of specialist commercial and corporate law attorneys based in Greece, the Greek lawyers of KPAG have worked on European and international legal issues since 1992. Due to our consistent specialisation in international issues, we guarantee the optimum environment and conditions for effective and successful resolution of international legal cases.
