Richard Main has been around the glass business most of his life. He was just a teenager when he worked with his older brother helping him install auto-glass. In 2000, Richard and his wife started Sierra Vista Glass and have grown it to be the most prominent full service glass company in Pima and Cochise County. With expert employees in both the auto glass and flat glass, Vista Glass has been successful in meeting the glass needs of the community in which it serves. The Vista Glass is recognized as a beacon in the community and has become an economic piller employing the residents of Pima and Cochise County.
