EURO DRIVESHAFTS is the market leader in the import of spare parts for the transmission of torque. We cooperate productively with suppliers from Turkey, USA, Germany, Italy, Great Britain, China and other countries of the world. We have presented the products of brands in different price categories with proven quality. The main range of our products is represented by cardan shafts, crosses, joints, axle shafts, outboard bearings, parts and components for cars and agricultural machinery. EURO DRIVESHAFTS provides services to both individual customers and stores, wholesalers, car repair shops and service centers that need high-quality spare parts.
