BIG SAVINGS

We’re confident we can beat your car dealer AND those online interest rate comparison websites. Because unlike most car dealers and other brokers, we have access to a range of lenders and specialist financiers. Access to wholesale rates means we can find you the most competitive loan based on your unique circumstances.

FAST AND HASSLE-FREE

We know how valuable your time is. That’s why we keep documentation and review times to a bare minimum, and do everything electronically where possible, to ensure you get your car as quickly and easily as possible.

SUPERIOR SERVICE

Our consultants are real, Australian people, based in Australia. No overseas call centres or pre-recorded menus; with AutoCarLoans you’ll speak directly with our expert staff every time. You won’t be palmed off between departments either: you’ll be allocated your own Finance Consultant who’ll stay with you throughout the entire process. That same person will be there for you throughout the life of your loan.

TAILORED OPTIONS

Whether you’re after a car loan, a novated lease, an operating lease or a chattel mortgage; we help you finance your car in the most advantageous way, based on your unique situation.
