At City Facial Plastics, our goal is to help patients feel confident about their appearance. Whether it is a subtle change to the lips or a complete face lift or rhinoplasty, Dr. Gary Linkov and our team of best plastic surgeons in NYC can help you achieve the best version of yourself. We use cutting-edge techniques and technology to ensure every patient obtains stunning, natural-looking results.

Hair restoration procedures, offered at our clinic, allow you to get the thick, luscious hair that you desire. The different types and methods of treatment are used to achieve the most satisfying results. While head hair transplant is the most common option, the treatment of other body areas is also available. At City Facial Plastics in NYC, the best-in-class facial plastic surgeon Dr. Gary Linkov offers advanced options for hair transplants and hair growth therapy to give his patients the thicker hair they crave.

Come visit our clinic and meet Dr. Linkov. He can help you find the most effective solutions to reverse the signs of hair loss, thinning or if you are getting bald. He is the best rated hair transplant doctor in NYC and also a frequently sought-after expert in the media, including regular appearances on major news outlets. Dr. Linkov prides himself on spending the necessary time to evaluate and treat hair loss issues in a compassionate and friendly environment on Madison Avenue in New York City.

If you are ready to make a change to your appearance, choose our top plastic surgeons who will truly listen and personalize your procedures. City Facial Plastics is your source for excellence in facial plastic surgery and non-surgical cosmetic treatments. Contact our office in Manhattan to schedule a consultation with Dr. Gary Linkov. Begin your journey to feeling and looking your best.
