Advanced Surgical & Bariatrics of NJ, PA (ASBNJ) is a multi-location medical practice specializing in surgical and non-surgical bariatric medicine, hernia repair and acid reflux solutions. From their New Jersey offices, these bariatric specialists serve patients in southern New York, northern New Jersey and eastern Pennsylvania for:

Weight loss
Bariatric issues
Hernia Surgery
Esophageal diseases
Acid reflux problems

Staffed by some of the most respected bariatric doctors in the region and the entire country, ASBNJ has built a practice with the latest equipment and most up-to-date techniques. The staff welcomes you to the practice as family, giving you the attention you desire while answering all your questions. The celebrated medical staff specialize in:

Weight loss surgery, also known as bariatric surgery
Gastric Bypass Surgery
Laparoscopic surgery, or simply laparoscopy

Advanced Surgical & Bariatrics of NJ, PA was built from the ground up to accommodate bariatric procedures. Established as a state-of-the-art facility, it’s one of the safest bariatric surgery programs in the tri-state region. The staff includes everything you may need during your treatment. ASBNJ maintains five offices around northern New Jersey. Find the closest bariatric center to you in:

East Brunswick
Edison
Marlboro
Princeton
Somerset, the main office

If you’re trying to lose weight through bariatric surgery, you deserve to be nurtured through the process. Each of the bariatric surgery centers is equipped with cutting-edge technology and staffed with compassionate caring professionals. Every office is staffed with all the trained specialists you may need during your treatment. They all work together to provide award-winning patient care.

Advanced Surgical & Bariatrics of NJ, PA is a premier bariatric center in northern New Jersey. Performing weight loss, esophageal and hernia procedures, the internationally recognized specialists help you reach your health goals in an optimal way. We dedicated to continuing education and refinement of the most cutting edge surgical techniques in the field, punctuated by Dr. Sadek’s experience and development of safety protocols leading to one of the lowest complication rates in the Northeast. This dedication to quality care has changed the lives of thousands of patients throughout the NY/NJ area. This bariatric center, with offices near you, performs teen weight loss procedures — as one of the few places in the country to treat teens for obesity. So call today for the appointment that can change your life.
