NJ spine center and state-of-the-art surgical center provides the most advanced minimally invasive spine surgery in the country. Founded by a neurosurgeon and fellowship-trained spine surgeon Dr. Branko Skovrlj, the NU-Spine pain center houses ultramodern diagnostic technology and newest treatment options.

Best in class spine surgeon in New Jersey Dr. Skovrlj, the founder of NU-Spine: The Minimally Invasive Spine Surgery Institute. Dr. Skovrlj is one of only a handful of spine neurosurgeons who focuses his expertise in the treatment of complex spine procedures. At his spine care center he uses advanced surgical techniques and latest technology to provide patients with evidence-based spinal treatments focusing on long-term successful outcomes.

New Jersey’s Ultimate Spine Pain Center Focuses on Determining a Correct Diagnosis
The spine surgeon selects an appropriate treatment to address the underlying cause of your pain for long-term relief. This spine care center has everything you need for resolving your back and neck pain:

-A recognized expert in diagnostic processes and spine surgery
-A facility unmatched for its state-of-the-art medical technology

Conveniently located in Edison, NJ, NU-Spine serves all of northern New Jersey and beyond. From New York City to eastern Pennsylvania, people can take advantage of the modern technology and the first-class treatment available at this NJ spine center.

Why Is NU-Spine the Best Choice for Back and Neck Pain?

A top-rated spine care center is designed to alleviate neck and back pain for good. NU-Spine is equipped to handle every type of spine-related pain. From injuries to diseases, from congenital disorders to age-related degeneration, Dr. Branko Skovrlj performs life-altering surgeries to help you regain an active lifestyle. When non-invasive, conservative treatments haven’t relieved your pain, make sure you have the best surgeon on your side.

The spine center staff make your well-being their top priority, while the facility’s comforting interior puts you at ease. With an advanced spine surgery center, NU-Spine delivers neurosurgery and spine surgery to minimize your pain and maximize your life.
