The top-rated, Ivy League trained (Harvard & Columbia Medical School) headache doctor and migraine relief specialist, Dr. Hosny of Advanced Headache Center in NYC, take a sophisticated treatment approach to the common headache.

Board Certified headache doctor and migraine treatment specialist Dr. Amr Hosny, MD, MBA, AQH, is best in class New York physician who provides highly personalized and comprehensive head pain treatments in NYC. Voted by peers as Castle Connolly Top Doctor and New York Super Doctor, he is among the best headache relief practitioners and migraine doctors in the country, widely recognized as the preeminent clinician/scientist in headache medicine.

Dr. Hosny is Board Certified in Headache Medicine by the National Headache Foundation (AQH) and the United Council for Neurological Subspecialties (UCNS) and is an active member of the American Headache Society and the International Headache Society.

The team of headache specialists offers the most extensive treatments for acute/chronic migraines, cluster headache, tension headaches, using nerve blocks, Botox, trigger point injections, acupuncture, etc. Manhattan multi-specialty doctors will check your symptoms, determine the possible cause of your headaches using the latest diagnostics. The doctors are highly trained and experienced in providing patients with alternative, integrative treatments such as migraine shot to achieve immediate headache or migraine pain relief. They offer a multimodal approach to diagnose and treat your headache accurately or set up a detailed plan to help you manage its triggers.

Visit our new cutting-edge Headache Center for instant migraine relief if you experience persistent headaches or migraines (intense pounding headache) or feel a mild to severe pain in the forehead, temples, and back of the neck.
