Company logo

With 27 years of brand trust of Citizen Group, Citizen Solar is one of the leading solar panel manufacturers in Ahmedabad, Gujarat, India. The company believes in cost-effective, high-end quality, and efficient sustainable energy products for making India a clean and green country. They are successfully manufacturing efficient solar panels for houses, commercial businesses, solar water heater,s and solar water pumps for the customers who want to take an environment-friendly approach for their everyday energy consumptions. Their industrial solar panels are great for reducing the energy cost for 24/7 running power plants. Hence moving to solar panels is a profitable decision in every aspect like finance and sustainability. Citizen Solar aims to become the preferred choice for solar power products in India. They have a dedicated and experienced team of engineers and technicians to support their customers throughout their solar journey. Also, they provide customer-friendly service and products for hassle-free installation and maintenance of these solar panels.
