Company logo

Concentrated on valve manufacturing, Baltic Valve Company is a pioneer in valve industry across the world. With excellent work ethic, the company has introduced the state-of-the-art equiptments to our clients for the past 15 years, such as ball valve, gate valve, check valve, globe valve, plug valve, butterfly valve, marine valve, forging steel valve and pipe filter, etc. Due to our continual high-quality services and stringent requirements of all processes from raw material selection to shipment. Balic has received appreciations from clients of European Countries and South America. Baltic is proud of competitive prices.
