Company logo

At Evoke Polished Plaster Interiors we specialise in a wide variety of Polished Plaster finishes from smooth through to textured, as well as additional decorative finishes such as stenciling and banding.

We source the finest eco-friendly lime plasters and crushed marble direct from Venice, Italy.

There are seven basic designs available, although here at Evoke we currently have 12 in our portfolio and our Bespoke Team is constantly developing more. We can also create amazing decorative effects such as banding and stencil work - both of which are popular for company logos or decor borders.
