JH Cutler, one of Australia's and the world's great tailors, has provided bespoke tailoring and tailoring guide classic services to discerning gentlemen throughout Australia, and across the world. A handcrafted suit takes time to create and evolves from a variety of traditional elements. Canvas backing, horsehair stiffener, and cotton padding. Yards of the finest silk and cotton thread strengthened with bees-wax. Super-fine cloth from precious natural fibers and Bemberg or silk lining finished off with buffalo horn or mother of pearl buttons. All these elements are carefully stitched and molded together, by hand, and with a sense of creative harmony.
