Company logo

We specialize in plastic bumper repair, mobile bumper repair, mobile auto body, and dent repair.

We are a mobile bumper repair service. We'll come to your home or office so that you can get your repair without making any changes to your day-to-day routine. Bumper Buddies is all about accommodating your schedule!

Bumper Buddies uses PPG, which is an environmentally friendly product and water-based paint that are only allowed by local and state governments. We also use computer matching paint technology so that your car comes out looking like nothing ever happened. Our technicians can fix most auto body repairs within two hours, and our average repair costs less than most deductibles!

Proudly Serving Maricopa County.
