Video Caddy is a digital wedding video platform that specializes in creating beautiful and creative wedding videos. From beginning to end, they help couples capture their special moments and big day. They offer a variety of packages to suit every budget and style, which include:

Full wedding production; this includes industry-standard camera and editing equipment, a wedding video editor, plus the latest video editing software, to create a stunning and truly personal wedding video.

Travel + wedding packages; couples can choose to have their wedding filmed in a variety of locations such as beach, mountain or forest, giving the wedding video a unique backdrop.

Music mixes; their team of experienced music composers will create the perfect accompaniment to their wedding videos.

HD + 4K footage; all videos are shot in HD or 4K resolution for superior quality.

They offer a wide range of packages which can be tailored to the individual couples needs. All services come with unlimited video revisions, so couples are satisfied with the perfect video package for their day. Video Caddy also provides optional add-ons such as aerial and drone videos and slow motion shots – to really capture the majestic beauty of the couple’s wedding day.

Video Caddy is the perfect choice for couples who want to capture their special day, with the help of professional-grade equipment and editing tools. Their experienced team of videographers and editors will help to create a truly unique and personal wedding video that couples can watch and treasure for years to come.
