African Spice Safaris is one of the longest-established safari outfitters based in East Africa. We have been offering a diverse collection of African Safari Holidays in East Africa for almost two decades now. Our destinations include Kenya, Tanzania, Uganda, and Rwanda.

Our African Safari Holidays in East Africa can be whatever you choose – whether you want to experience the Big 5 safari in Tanzania, watch a river crossing of the Wildebeest migration in the Maasai Mara in Kenya, climb Mt Kenya or Mt Kilimanjaro, go Rwanda Gorilla trekking, Chimpanzee trekking in Uganda or relax on the white sandy beaches of Mombasa or Zanzibar, an African safari holiday has it all.

You book your international flight and we take care of everything else. We take care of your airport transfers, hotel bookings, internal domestic flights, and safaris to all the famous national parks and game reserves, with the option of following the safari with a stay at a beach resort.
