Hurwitz Law Group, Criminal Defense Attorney helps those who have been arrested and charged with felonies, misdemeanors, and DUIs. Anyone accused of a misdemeanor or felony needs to understand the value of a reliable Los Angeles criminal defense attorney. While the state will provide a public defender if the accused cannot afford a private lawyer or does not wish to incur the expense of hiring one, public defenders typically manage several cases at once and therefore will have little to no personal investment in any given case. A private defense attorney like those at Hurwitz Law Group will provide a more personalized and comprehensive legal defense and have more incentive to reach favorable results for their clients.
