Company logo

Established in 2007, SparxIT is a leading software development company based in the USA and India. With our commitment to quality services in the IT-Software industry, we have earned prestigious recognitions, including ISO 9001:2008 certification.

Our extensive experience spans various industries, including FinTech, Edtech, Healthcare, Logistics, eCommerce, SaaS, Entertainment, Travel, Wellness, Social Media, and more. We have successfully provided top-notch services to renowned brands, startups, and Fortune 500 companies, emphasizing integrity and delivering quality outcomes.

Our core specialization lies in cross-platform and native mobile app development, utilizing cutting-edge technologies like React Native, Flutter, Java, Kotlin, Swift, and more. Additionally, we excel in delivering high-end web solutions leveraging technologies and frameworks such as WordPress, Drupal, Core PHP, Shopify, Magento, and others.

To ensure the creation of innovative and captivating solutions, we offer strategic software testing services. We also stay at the forefront of technological advancements, embracing Web 3.0 and focusing on emerging technologies like Blockchain development, Machine Learning, Augmented Reality, Artificial Intelligence, and more.
