Renown investment art visual artist George Mulaudzi also being a natural medicine practitioner with decades of experience founded Men’s Health Clinics in addition to his other business interests. The in-depth experience in natural medicine led to the development of the best side effects free methods to handle issues relating to men’s sexual health. “Natural medicine work best” is our motto. Our men’s clinic is the leading practitioner in male sexual health because of our methods strongly founded in natural medicine. We are considered to be the best alternative to western medical solutions to men's health issues by men in Africa, North America, South America, Asia, Australia and Europe.

Men’s health clinics as an entity was founded in 2003 as an alternative to western medical solutions in dealing with men’s health issues. Amazingly, the entity has grown tremendously over the years. For many years men have complained about western medicine not being the best solution to their male sexual health related issues. Thus, after many years of herbal practice Men’s health clinics was formed to be a direct response to the cries of men.
