Haven Memory Care is an exclusive memory care community for seniors experiencing any form of dementia. Our services extend to Alzheimer's care, Lewy Body dementia care, frontotemporal lobe, mixed dementia care, and more. Our dementia care facility also provides respite services and end-of-life care with our hospice services. We have the highest educated staff in regard to dementia training and provide individual care for the specific stage of dementia our residents are experiencing. Our 11-acre campus offers the most specialized memory care available, encompassing the full spectrum of memory-related diagnoses. Our patient-centered approach focuses on providing holistic, comprehensive care inside our state-of-the-art memory care facility.
