My Spiritual Journey began at a very young age when I lived in my own world. I used to have conversations with relatives passed over. They visit me in my dreams and often I can speak to them even when I am not asleep.

In my later years I developed different skills within the Spiritual, Metaphysical and New Age sphere including working with my Spirit Guides, Mediumship, Angel cards, Oracle cards and Energy Healing.

Services: psychic, medium, Energy Healing, Phone Readings, E-Mail Readings
