Active Bobcat Services is a proudly Western Australian owned and operated Truck & Bobcat Hire with an operator based in Perth’s northern suburbs but serving the entire Perth metropolitan area.

We are one of the few companies that provide Bobcat Hire in Perth complete with a competent operator, truck and trailer. Our services reflect extensive experience in a wide range of earthmoving, excavation and site clearing jobs. Each project/task is taken with great care towards the property, and we pride ourselves in the quality of our work, ensuring every site is left clean and tidy.

Our Bobcat hire packages are ideal for a variety of residential projects including the removal of concrete driveways, paving and garden areas as well as excavating land for future pools to be installed. They are also great for larger commercial projects including landscaping jobs, clearing and levelling building sites and lifting and moving heavy materials like bricks, dirt and soil.

The team at Active Bobcat Services fully understands that a clean site is a safe site, which is why we will always remove all rubble, brick and debris left on your site as soon as possible. We can also assist in the preparation of driveways and paving by bringing the required soils and sands.
